

## Summary

## Mountain Mellick

## Melica nutans

This small grass is much less common than *Melica uniflora*. You can tell the difference by looking at the florets. *Melica nutans*, left, has one sided flower spikes where each flower hangs from the main stem

*Melica uniflora*, right, has smaller flowers that hang from a many branched stem

## Melica nutans historical data

4 figure	Site	Grid Ref	Recorder	Date	Number	Comments
4376	Park Point	SD4369576927	AK	05/08/23	1 plants	i clump with one flowering spike left.
4377	Frith Wood	SD4377				
4576	Middlebarrow Plain	SD4576				
4676	Eaves Wood	SD4670376128	AF	01/08/23	scattered	Just in front of the ruined cottage among brambles, bracken etc
4676	Eaves Wood	SD4693976410	AF	17/06/23	small clump	Waterslack.around the very beautiful wide spreading big oak.
4677	Hagg Wood	SD462774				
4777	Gait Barrows	SD4792377448	AK	11/08/23	a large patch	a patch about 2m by 6m at edge of open area by side of path to Shed j
4877	Gait Barrows	SD4816277509	AK	06/07/23	clump	just by side of Limestone path just after it splits from main path from car park to barn on LHS
4877	Gait Barrows	SD4818477588	P Mcl	17/05/24	2 plants	just off path
4877	Gait Barrows	SD4823577122	AK	06/07/23	clump	just by a small hazel bush in yew trail on way up to the cairn from the fields
4877	Gait Barrows	SD4828877456	AK	06/07/23	clump	on edge of shed car park where the yew trail comes in on RHS when you are facing the barn
4877	Gait Barrows	SD48097759	LF	04/05/23	1	near helleborus foetidus
4877	Gait Barrows	SD4809877425	LF	16/05/23	patch	deep in gryke, also at other gps
4978	Marble Quarry	SD49647854
