

Summary

Parsley Waterdropwort

Oenanthe lachenalii

Parsley Waterdropwort is not as common as its relative Hemlock Waterdropwort in the AONB. We have 13 monads for it. We have found plants in 9 of these. Note its strap/ribbon like leaves.

*Oenanthe lachenalii*

4 figure	Site	Grid Ref	Recorder	Date	Number	Comments
4477	New Barns	SD4436277788	AK	17/07/23	2 large clumps	seaward side of the road between the Bobin and Grubbins Wood
